**DEPARTMENT OF STANDARDS MALAYSIA**

## DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. These standards where appropriate are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Universiti Kebangsaan Malaysia  
Universiti Putra Malaysia

## **FOREWORD**

This Malaysian Standard was developed by the Technical Committee on Spices and Condiments under the authority of the Food and Agricultural Industry Standards Committee.

During the development of this standard, reference was made to MS 405: 1976 - Method of sampling and test for starches.

MS 81, consist of the following parts under the general title Method of sampling and test for spices and condiments:

- a) Part 1: Determination of extraneous matter content (First revision);
- b) Part 2: Determination of total ash (First revision);
- c) Part 3: Determination of acid-insoluble ash (First revision);
- d) Part 4: Determination of moisture content - entrainment method (First revision);
- e) Part 5: Determination of alcohol-soluble extract (First revision);
- f) Part 6: Determination of cold water-soluble extract (First revision);
- g) Part 7: Sampling (First revision);
- h) Part 8: Determination of non-volatile ether extract (First revision);
- i) Part 9: Determination of filth (First revision);
- j) Part 10: Preparation of a ground sample for analysis (First revision);
- k) Part 11: Determination of volatile oil (First revision);
- l) Part 12: Determination of particle size; and
- m) Part 13: Determination of total starch.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.
