DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Ir. Lau Chu Fong/ Ir. Loke Ean Bee	SHELL (M) Trading Sdn. Bhd.
Encik Makhzan Selamat/ Encik Yee Gim Kong	PETRONAS Dagangan Berhad
Encik Eric Seah/ Puan Zawiah Ali	PETRONAS Research and Scientific Services Sdn. Bhd
Encik Ong Eng Kiang/ Encik Chew Choy	ESSO (M) Bhd.
Encik Choong Yoke Shiang	BP (M) Sdn. Bhd.

FOREWORD

This Malaysian Standard was developed by the Working Group on Petroleum Fuels and Lubricants under the authority of the Petroleum and Gas Industry Standards Committee.

In the revision of this standard, references were made to the following documents:

- i) BS 2869 Part 2 : 1988 Fuel oils for non-marine use (for fuel oil for agricultural and industrial engines and burners).
- ii) ASTM D 3699 (vol 5.02) 1992 Standard Specification for Kerosene.

In this revision, several amendments were made to the standard . The main changes featured are:

- 1) to classify kerosene into two grades namely Grade 1 and Grade 2;
- 2) Table 1, 'Properties of Kerosene', copper corrosion test and flock test were deleted;
- 3) for undated references, the latest edition of the publication referred to applies.

This standard shall supersede MS 117 : 1986, Specification for Kerosene (First revision).

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligation.
