DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (DSM)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Committee representation

The Rubber and Rubber Products Industry Standards Committee (ISC N) under whose supervision this Malaysian Standards was developed, comprises representatives from the following organisations:

Association of Malaysian Medical Industries

Jabatan Standard Malaysia

Kementerian Kesihatan Malaysia

Lembaga Getah Malaysia

Malaysian Association of Tyre Retreaders and Dealers Society

Malaysian Automotive Tyre Manufacturers Industry Group

Malaysian Latex and Rubber Thread Manufacturers' Association

Malaysian Rubber Glove Manufacturers Association

Malaysian Rubber Product Manufacturers' Association

Plastic and Rubber Institute of Malaysia

Universiti Kebangsaan Malaysia

Universiti Sains Malaysia

The Technical Committee on Latex Dipped Products which developed this standard was managed by the Malaysian Rubber Board in its capacity as an authorised Standards-Writing Organization and comprised the following organisations:

Hartalega Sdn Bhd

Malaysian Rubber Board

Malaysian Rubber Glove Manufacturers Association

Multisafe Sdn Bhd

SIRIM Berhad

Top Glove Sdn Bhd

Universiti Teknologi MARA

NATIONAL FOREWORD

This Malaysian Standard was developed by the Technical Committee on Latex Dipped Product, under the authority of the Rubber and Rubber Products Industry Standards Committee. Development of this standard was carried out by the Malaysian Rubber Board which is the Standards-Writing Organization (SWO) appointed by SIRIM Berhad to develop standards for rubber and rubber products.

This Malaysian Standard is identical with ISO 11193-1:2002, Single-use medical examination gloves – Part 1: Specification for gloves made from rubber latex or rubber solution, published by the International Organization for Standardization (ISO), which has the same title, with the following modifications:

a) The title has been changed from “Single-use medical examination gloves – Part 1: Specification for gloves made from rubber latex or rubber solution” to “Single-use medical examination gloves – Specification”;

b) Clause 3.3 has been modified as follows:

“~~Four~~ Two finishes are classified:

a) textured surface over part or all of the glove;

b) smooth surface;

~~c) powdered surface;~~

~~d) powder-free surface.~~

Note: Gloves may be powdered or powder-free. Powdered gloves are gloves where a powder has been added as a part of the manufacturing process, generally to facilitate donning. Powder-free gloves are gloves which have been manufactured without the deliberate addition of powdered materials to facilitate donning.”

b) in the source text, "this International Standard" should read "this Malaysian Standard"; and

c) the comma which is used as a decimal sign (if any), to read as a full point.

This Malaysian Standard cancels and replaces MS 1155:1999, Specification for single use rubber examination gloves (First revision).

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. MOD on the front cover indicates a modified standard i.e. a standard adapted from an International Standard with permitted technical deviations, which are clearly identified and explained. The changes in structure are permitted provided that the altered structure permits easy comparison of the content of the two standards. Modified standards also include the changes permitted under identical correspondence.

Single-use medical examination gloves —
Part 1:
**Specification for gloves made from rubber
latex or rubber solution**

Gants en caoutchouc pour examen, non réutilisables —

*Partie 1: Spécifications pour gants fabriqués à partir de latex de caoutchouc
ou d'une solution de caoutchouc*
