DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standardisation and accreditation body.

The main function of the Department is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards are developed through consensus by committees which comprise of balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject in hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 (Act 549). Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

The Department of Standards appoints **SIRIM Berhad** as the agent to develop Malaysian Standards. The Department also appoints SIRIM Berhad as the agent for distribution and sale of Malaysian Standards.

Committee representation

The Industry Standards Committee on Mechanical Engineering (ISC F) under whose authority this Malaysian Standard was adopted, comprises representatives from the following organisations:

Department of Occupational Safety and Health Malaysia
Department of Standards Malaysia
Jabatan Kerja Raya Malaysia
Machinery and Equipment Manufacturers' Association
Malaysian Industrial Development Authority
Malaysian Iron and Steel Industry Federation
Ministry of International Trade and Industry Malaysia
National Institute of Occupational Safety and Health
Petroleum Nasional Berhad
Petronas Lubricants International Sdn Bhd
Science and Technology Research Institute for Defence
SIRIM QAS International Sdn Bhd
Suruhanjaya Perkhidmatan Air Negara
Suruhanjaya Tenaga
The Institution of Engineers, Malaysia
Universiti Kebangsaan Malaysia
Universiti Malaya
Universiti Sains Malaysia
Universiti Teknologi Malaysia

The Technical Committee on Mechanical Testing of Metallic Materials which recommended the adoption of the ISO Standard consists of representatives from the following organisations:

Advanced Materials Research Centre

Construction Industry Development Board Malaysia

Institute of Materials Malaysia

Jabatan Kerja Raya Malaysia

Malaysian Iron and Steel Industry Federation

Metallurgical Consultancy and Services Sdn Bhd

National Metrology Laboratory

SIRIM Berhad

SIRIM QAS International Sdn Bhd

The Institution of Engineers, Malaysia

The Leader Computerised Vehicle Inspection

Universiti Malaya

Universiti Teknologi Malaysia

Universiti Teknologi MARA

Universiti Teknologi PETRONAS

MS ISO 148-1:2008

Committee representation *(continued)*

Co-opted members:

Department of Occupational Safety and Health Malaysia

Petronas Group Technology Solutions

SHELL Refining Company (Federation of Malaya) Berhad

NATIONAL FOREWORD

The adoption of the ISO Standard as a Malaysian Standard was recommended by the Technical Committee on Mechanical Testing of Metallic Materials under the authority of the Industry Standards Committee on Mechanical Engineering.

This Malaysian Standard is identical with ISO 148-1:2006, *Metallic materials - Charpy pendulum impact test - Part 1: Test method*, published by the International Organization for Standardization (ISO). However, for the purposes of this Malaysian Standard, the following apply:

- a) in the source text, "this International Standard" should read "this Malaysian Standard";
and
- b) the comma which is used as a decimal sign (if any), to read as a point.

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. IDT on the front cover indicates an identical standard i.e. a standard where the technical content, structure, wording (or is an identical translation) of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and structure although it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21-1.

**Metallic materials — Charpy pendulum
impact test —**

**Part 1:
Test method**

*Matériaux métalliques — Essai de flexion par choc sur éprouvette
Charpy —*

Partie 1: Méthode d'essai
