**METHODS FOR THE DETERMINATION OF CHANGE IN  
LENGTH OF NETTING YARNS AFTER IMMERSION IN WATER**

STANDARDS & INDUSTRIAL RESEARCH INSTITUTE OF MALAYSIA

© Copyright

This Malaysian Standard, which had been approved by the Textile and Clothing Industry Standards Committee and endorsed by the Council of the Standards and Industrial Research Institute of Malaysia (SIRIM) was published under the authority of the SIRIM Council in May, 1979.

SIRIM wishes to draw attention to the fact that this Malaysian Standard does not purport to include all the necessary provisions of a contract.

The Malaysian Standards are subject to periodical review to keep abreast of progress in the industries concerned. Suggestions for improvements will be recorded and in due course brought to the notice of the Committees charged with the revision of the standards to which they refer.

The following references relate to the work on this standard:

Committee reference: SIRIM/TC7 (ISC2)001

Draft for comment: D 143 (ISC2)

Ministry of Public Enterprises (MARA)  
Ministry of Science, Technology and Environment (Department of Chemistry)  
National Chamber of Commerce and Industry of Malaysia  
Textile Knitting Industry  
Textile Spinning Industry  
Textile Weaving Industry

## FOREWORD

This Malaysian Standard was prepared by the Technical Committee on Yarns, Threads and Twines under the authority of the Textile and Clothing Industry Standards Committee. It is based on the International Standard ISO 3090 – 1974, 'Netting yarns – Determination of change in length after immersion in water'.
