DEPARTMENT OF STANDARDS MALAYSIA

DEVELOPMENT OF MALAYSIAN STANDARDS

The **Department of Standards Malaysia (STANDARDS MALAYSIA)** is the national standards and accreditation body of Malaysia.

The main function of STANDARDS MALAYSIA is to foster and promote standards, standardisation and accreditation as a means of advancing the national economy, promoting industrial efficiency and development, benefiting the health and safety of the public, protecting the consumers, facilitating domestic and international trade and furthering international cooperation in relation to standards and standardisation.

Malaysian Standards (MS) are developed through consensus by committees which comprise balanced representation of producers, users, consumers and others with relevant interests, as may be appropriate to the subject at hand. To the greatest extent possible, Malaysian Standards are aligned to or are adoption of international standards. Approval of a standard as a Malaysian Standard is governed by the Standards of Malaysia Act 1996 [Act 549]. Malaysian Standards are reviewed periodically. The use of Malaysian Standards is voluntary except in so far as they are made mandatory by regulatory authorities by means of regulations, local by-laws or any other similar ways.

STANDARDS MALAYSIA has appointed **SIRIM Berhad** as the agent to develop, distribute and sell the Malaysian Standards.

NAUI, Secretariat
PADI Asia Pacific
Scuba School International
Universiti Malaya

Co-opted members:

Department of Civil Defense Malaysia
Marine Department Malaysia
SEA Divers Sdn Bhd
Universiti Teknologi Malaysia

NATIONAL FOREWORD

The adoption of the ISO Standard as a Malaysian Standard was recommended by the Technical Committee on Tourism and Related Services under the authority of the Industry Standards Committee on Tourism, Exhibition and Hospitality Services.

This Malaysian Standard is identical with ISO 11121:2009, *Recreational diving services - Requirements for introductory training programmes to scuba diving*, published by the International Organization for Standardization (ISO). However, for the purposes of this Malaysian Standard, the following apply:

- a) in the source text, "this International Standard" should read "this Malaysian Standard";
- b) the comma which is used as a decimal sign (if any), to read as a point; and
- c) reference to International Standards should be replaced by corresponding Malaysian Standards as follows:

Referenced International Standards

Corresponding Malaysian Standards

ISO 24801-3, *Recreational diving services - Safety related minimum requirements for the training of recreational scuba divers - Part 3: Level 3 - Dive leader*

MS ISO 24801-3, *Recreational diving services - Safety related minimum requirements for the training of recreational scuba divers - Part 3: Level 3 - Dive leader*

ISO 24802-1, *Recreational diving services - Safety related minimum requirements for the training of scuba instructors - Part 1: Level 1*

MS ISO 24802-1, *Recreational diving services - Safety related minimum requirements for the training of scuba instructors - Part 1: Level 1*

ISO 24802-2, *Recreational diving services - Safety related minimum requirements for the training of scuba instructors - Part 2: Level 2*

MS ISO 24802-2, *Recreational diving services - Safety related minimum requirements for the training of scuba instructors - Part 2: Level 2*

ISO 24803, *Recreational diving services - Requirements for recreational scuba diving service providers*

MS ISO 24803, *Recreational diving services - Requirements for recreational scuba diving service providers*

Compliance with a Malaysian Standard does not of itself confer immunity from legal obligations.

NOTE. IDT on the front cover indicates an identical standard i.e. a standard where the technical content, structure, and wording (or is an identical translation) of a Malaysian Standard is exactly the same as in an International Standard or is identical in technical content and structure although it may contain the minimal editorial changes specified in clause 4.2 of ISO/IEC Guide 21-1.
